

DANGER

PRODUCTS IN YOUR HOME MAY CONTAIN TOXIC CHEMICALS

 **THE NEXT
3 MINUTES
WILL CHANGE
YOUR LIFE:**

How much do you really know about the products you use every day to clean and care for your children, your home and yourself?

The Toxic Test™ was created to help you protect your family and your home from the dangerous chemicals hiding in your laundry room, family room, kitchen and bathroom.

PROTECT YOUR FAMILY. PROTECT YOUR HOME.

INGREDIENTS IN LEADING HOUSEHOLD BRANDS CAN CAUSE HEALTH RISKS

BROUGHT TO YOU BY

www.HealthyHomeCompany.com

An increasing amount of research led by organizations like the Environmental Working Group, Campaign for Safe Cosmetics, National Defense Research Counsel, as well as government organizations and prominent scientists, reveals that ongoing exposure to toxic chemicals (even in low doses) can cause issues with our hormonal, reproductive and immune systems.

Research shows that health concerns such as asthma, learning disabilities, birth defects and reproductive issues can be linked to exposure to toxic chemicals and exposure is cumulative over time.

Many of these toxic chemicals can be found in everyday household and personal care products, and are particularly harmful in the womb or during early childhood.

If These Chemicals Are In Your Home, They Are Also In You!

It only takes 26 seconds...

For the chemicals from shampoos, laundry detergent, soaps, household cleaners, cosmetics, lotions and many more products found in the home to enter the bloodstream through your skin.

Over 80,000...

Chemicals have been on the market and available for use since the Toxic Substances Control Act (TSCA) was enacted in 1976 under President Gerald Ford.

- ☢ TSCA allows chemical manufacturers to keep the ingredients in some chemicals secret. (In fact, according to EPA, nearly 20% of the 80,000 chemicals are secret.)
- ☢ Additionally, EPA has required very few of these to be tested for their impacts on human health and the environment (only 200 of the original 60,000 have been tested for safety).

But regulations are protecting us, right?

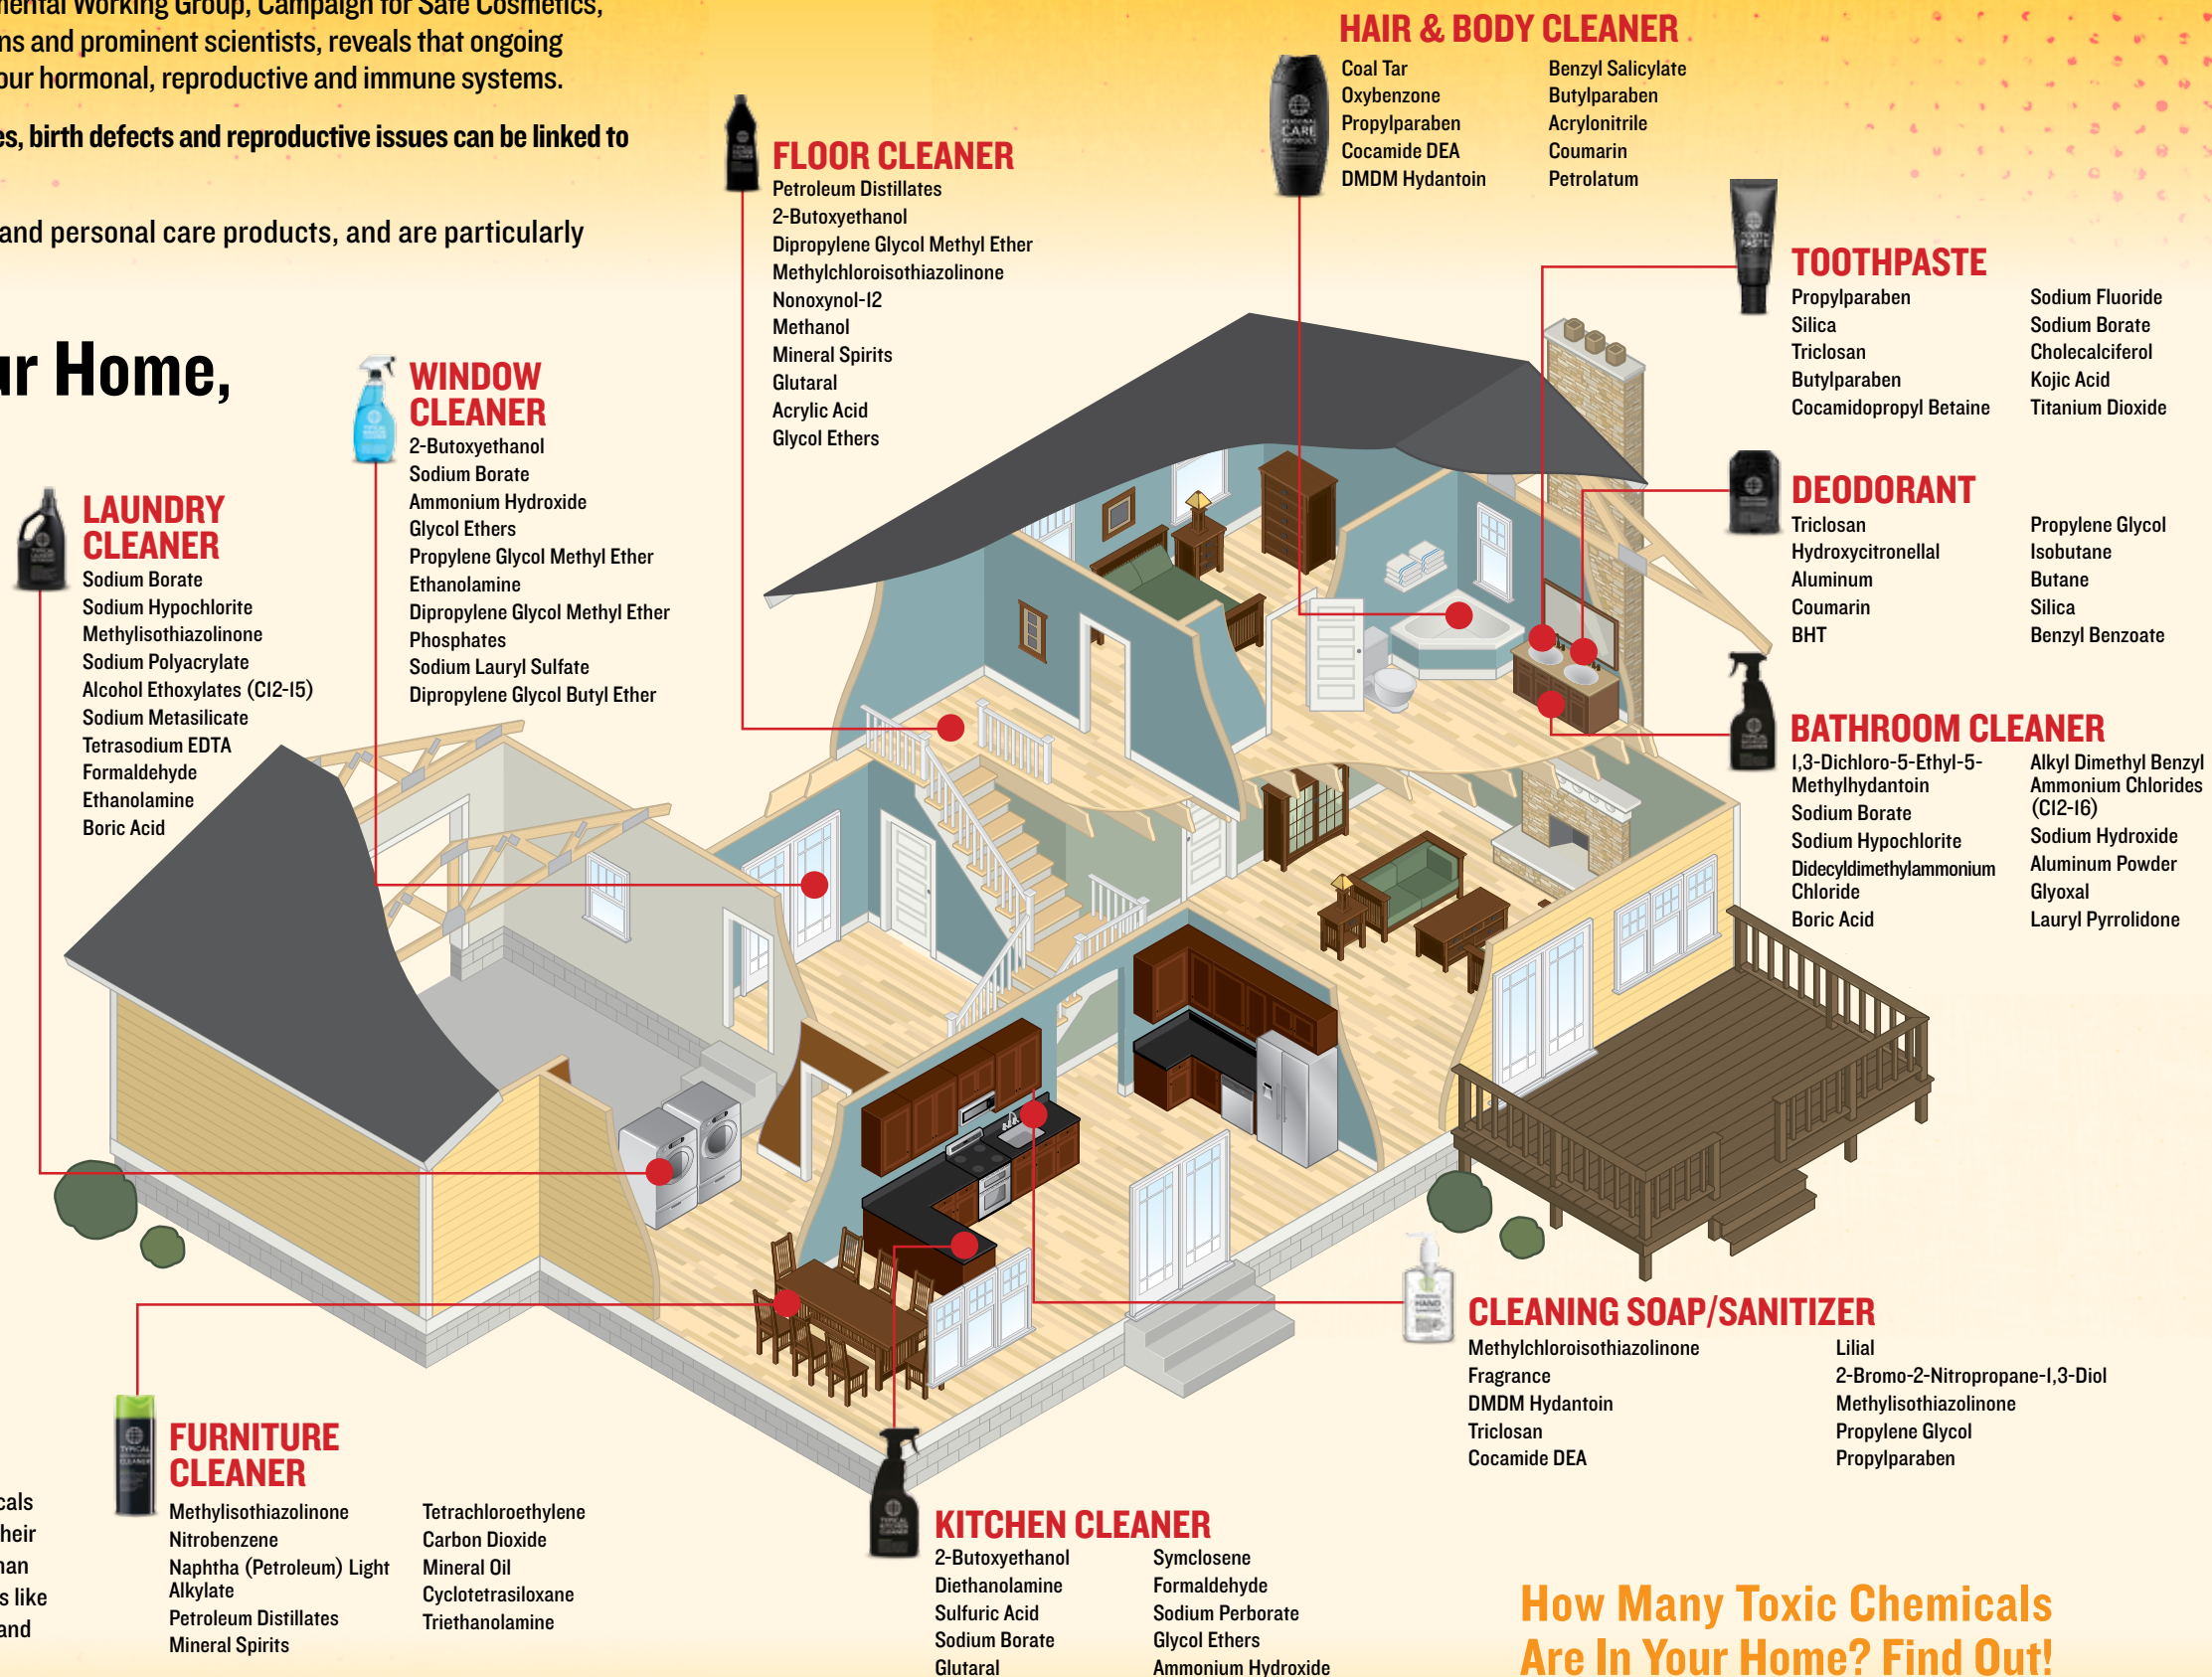

Wrong...

Instead of requiring chemical manufacturers to demonstrate that their products are safe before they go into use, the law says the government has to prove actual harm in order to control or replace a dangerous chemical.

- ☢ For example, the cosmetics industry is self-regulated and very little legislation has been passed to protect women from the chemicals in their products, even though over 1,000 chemicals in makeup have been banned in Europe alone.

Our Children Are At Risk

Children are born today with over 200 chemicals coursing through their veins. The proof is in their cord blood, where studies have found more than 287 chemicals that have been linked to issues like birth defects, developmental delays, toxicity and even cancer.

How Many Toxic Chemicals Are In Your Home? Find Out!

WHAT CAN YOU DO?

Make a change in the products you buy.

Shopping safer and smarter doesn't have to be difficult. It can even help save you money! Let us help you take the guesswork out of making your home a safer place for you and your family. Visit <http://shop.takethetoxictest.com> to learn more.

Download our ToxicFree® Tools.

Making the switch to ToxicFree® can seem overwhelming, which is why we've created a library of resources, including our 60-page Toxic Alarm Guide, Toxic Ten reference cards and ToxicFree® Glossary to help you navigate those labels! Visit <http://tools.takethetoxictest.com> to get started.

Share the Toxic Test™.

Once you learn what's in the products you use in and around your home, you'll want to help your friends and family make their homes safe too. Tell them to Take the Toxic Test and use our tools and message guide to walk them through it firsthand. It could be the most important three minutes of their lives!

Help Build a ToxicFree® Movement.

Creating awareness about what's in the products we've been using is critical to helping families across the world make their homes a safer place to live and raise their families. Spread the cause in your community—together we can make a difference, one home at a time!

Do Good and Earn Cash Back Rewards Along the Way.

When you decide to become part of the Healthy Home family, you'll earn cash back rewards each time someone you refer shops with us for as long as they shop. No other product company or store can beat that!

Visit <http://healthyhomecompany.com/join> to join the club and share the cause!

PROTECT YOUR FAMILY. PROTECT YOUR HOME.
